

WHO IS HFNZ?

Established in 1958, Haemophilia Foundation of New Zealand Inc. (HFNZ) supports and represents people with bleeding disorders.

Bleeding disorders are lifelong chronic conditions for which there are no cures. Through our educational camps, workshops, and other supportive programmes, HFNZ is able to assist people with these chronic disorders through all stages of their lives.

HFNZ'S PURPOSE

To improve the lives and long-term outcomes for people with bleeding disorders, enabling active, independent and fulfilling lives.

Please note

All Outreach Workers work part-time and will respond to phone messages and emails as soon as they are available. Please feel free to leave messages or emails after hours for the Outreach worker to follow up.

HFNZ and our Outreach Workers do not provide medical care or an emergency service. For medical emergencies please contact your closest hospital or Haemophilia Treatment Centre.

Feel free to contact us with any questions or concerns you may have regarding your or your child's bleeding disorder. We are here to help.

OUTREACH SERVICES

for people with bleeding disorders and those that care for them

HFNZ Outreach Workers offer support and services to people across New Zealand.

Through our four regionally-based Outreach Workers, HFNZ works to support and inform people affected by bleeding disorders and their family members/whanau.

WWW.HAEMOPHILIA.ORG.NZ

HFNZ Outreach Workers provide education, support and advocacy.

They understand bleeding disorders and the New Zealand health and social services sector. HFNZ's Outreach Service is provided free of charge to all people affected by bleeding disorders. The service is funded through donations, grants and government support.

HFNZ Outreach Workers strive to work in partnership with people affected by bleeding disorders and their families/whanau to identify their own needs and support them to achieve their potential.

HFNZ OUTREACH WORKERS

- Help in all areas of a person's life providing education, support and advocacy
- Provide information about your or your child's bleeding disorder, both when first diagnosed and as you progress through different life stages
- Help explain information and how to apply it to your individual situation
- Work with regional Haemophilia Treatment Centres and other medical professionals
- Help you understand health and support systems and help you to access services
- Provide information and education about your bleeding disorder to other organisations (schools, work, support organisations)
- Facilitate communication and co-operation between individuals and agencies

“ She is always helpful in every field. I always feel positive after meeting her and discussing things with her. She helps me to make decisions regarding my job, my health... And I feel that there is someone who is always there to help me. ”

HFNZ Outreach Workers are a great source of information - about HFNZ programmes or events, health concerns or assistance.

Your regional Outreach Workers can assist you with:

- Opportunities to meet other HFNZ members for mutual support
- Attendance at HFNZ Workshops, Camps and Events

Your regional Outreach Worker is available by phone, text, email, Facebook and in person.

Outreach Workers have many clients, so it is important that you contact them when you need them. They are never too busy for you. They have the flexibility to support individuals and families in different ways based on specific need.
